2025 [WWW.FACTTO.CA](http://WWW.FACTTO.CA)

## PRESIDENT MESSAGE

As we close out 2025, I want to extend my heartfelt thanks to our Board of Directors, members, partners, sponsors, volunteers, and the wider community for walking alongside FACT throughout another meaningful year. Your support is what turns ideas into impact—and 2025 was a year of growth, connection, and new milestones.

One of our proudest highlights was our signature community celebration: the 7th Asialicious Carnival. More than a festival, Asialicious Carnival has become a key annual event that brings people together through cultural exchange, supports our local economy by creating opportunities for vendors and performers, and provides real-world leadership development for our youth. Seeing young volunteers step up and lead across **three days of large-scale public programming** reminded us why investing in the next generation matters.

Throughout the year, our in-person **Business Networking** gatherings continued to grow as a learning hub—bringing members and local businesses together to exchange insights on the latest trends, expanding networking relationships, and creating practical collaboration opportunities.

This year also marked a major first for FACT: our first, **Asia Trade Mission**. The 12 day trade mission was successfully completed between **Oct 29 and Nov 9, 2025**, with engagements across **Singapore, Malaysia, Shanghai, and the Greater Bay Area (China), including Hong Kong**. The mission strengthened two-way Canada-Asia collaboration and opened new pathways for partnership and growth.

Looking ahead to **2026**, we will continue building momentum with:

- **Quarterly networking events**, featuring keynote speakers, idea exchange, and direct B2B connections
- **FACT Annual Gala (June 2026)** — an elegant evening to celebrate our achievements, welcome fresh energy and leadership, and connect with FACT Board of Directors, members, partners, and community leaders.
- The **8th Asialicious Carnival (September 2026)**

Thank you again for believing in FACT's mission. I look forward to connecting with you at our upcoming events and continuing this journey together—connecting communities, empowering businesses, and creating meaningful collaborative opportunities.

Warmest wishes for a joyful holiday season and a bright New Year.

Warm regards,

Benny Cheung, CLU®  
President, Federation of Asian Canadians Toronto (FACT)

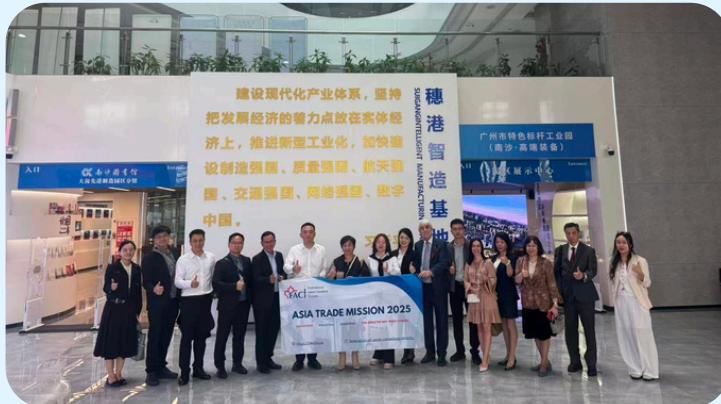

BENNY CHEUNG, CLU®  
**PRESIDENT OF FACT**

# FACT EVENT RECAP

## ASIA TRADE MISSION

FACT's 2025 Asia Trade Mission successfully concluded from October 29 to November 9, 2025, marking an important milestone in strengthening two-way Canada-Asia collaboration.

The delegation visited Singapore, Malaysia, and China, including Shanghai, Nansha in the Greater Bay Area, and Hong Kong, to shorten market-entry cycles, enhance collaboration efficiency, and establish sustainable, long-term bilateral channels.

### Key Highlights Included:

- Targeted B2B matchmaking and curated introductions
- In-depth market exposure and ecosystem insights
- Expanded cross-border networks spanning trade, investment, education collaboration, and capital market opportunities

FACT extends its sincere thanks to our partners, hosts, and delegation members for their strong support and meaningful engagement throughout the mission.

# FACT EVENT RECAP

## BOARD CHRISTMAS PARTY

The FACT Board came together on December 16, 2025 for a festive Christmas celebration filled with laughter, meaningful conversations, and holiday cheer. It was a wonderful opportunity for board members and committee leaders to reflect on the year's achievements, strengthen connections, and share appreciation for one another's dedication to serving the Asian Canadian community. The evening captured the true spirit of the season—gratitude, togetherness, and renewed energy as we look ahead to an exciting year for FACT.

**Business Networking | FROM HUSTLE TO AI | 16 October, 2025** — FACT's Business Networking Event at RBC Conference Hall brought together professionals across retail, F&B, e-commerce, and services to explore practical AI transformation. Keynote Closs Tong (SuperLysa) shared AI Agent case studies. Thanks to RBC, Vava Designer Cakes, and Alvento Winery.

## ***What AI Really Is—and Why It's Transforming How Businesses Operate***

Artificial Intelligence (AI) is often talked about as a future technology, but in reality, it has already become a practical tool that businesses can use today to reduce complexity, improve efficiency, and scale more sustainably. To understand its true value, it's important to move beyond the idea of AI as "just a chatbot" and recognize how it actually works in real operations.

Modern AI—especially AI agents—functions more like a digital employee than a piece of software. These agents are designed to handle specific responsibilities: storing knowledge, following processes, responding to questions, and assisting with decision-making. Unlike human staff, AI agents don't forget information, don't need retraining, and can operate continuously without fatigue.

One of the most impactful ways AI helps businesses is by centralizing knowledge. In many organizations, managers spend significant time answering the same questions repeatedly—about procedures, pricing, or policies. AI can store all of this information in one place and provide instant, consistent answers to staff. This dramatically shortens onboarding time, reduces mistakes, and allows leaders to focus on higher-level work instead of constant troubleshooting.

AI also improves customer-facing operations. AI agents can respond instantly to inquiries, guide customers through options, handle common objections, and suggest relevant upgrades or add-ons. This enables businesses to offer 24/7 service without increasing headcount, often leading to higher conversion rates and improved customer satisfaction.

In marketing and content creation, AI reduces manual workload by generating product descriptions, social media content, visuals, and SEO-ready copy in a fraction of the time. Teams can maintain a consistent brand voice while freeing up hours previously spent on repetitive tasks.

Ultimately, AI creates stability and predictability. When company knowledge and workflows live inside AI systems rather than in individual employees' heads, businesses become more resilient, easier to scale, and far less dependent on constant firefighting. AI doesn't replace people—it removes friction, allowing teams to focus on what matters most.
