

Asia Trade Mission 2025

Duration: 12 Days

Start Date: Late October or
Early November

Purpose

Departing from Toronto, Canada, the mission will visit **China, Thailand, and Singapore** – three highly internationalized economies that have shown strong post-pandemic recovery and abundant cross-border business potential. These markets are ideal for exploring new opportunities in innovation and expansion.

The trade mission will focus on sectors such as clean tech, AI, data processing, hospitality, life sciences, etc... Delegates will engage directly with top local companies to deepen market understanding and foster meaningful business connections.

With significant shifts in global trade policy, especially U.S. tariffs, now is a critical time to diversify beyond the U.S. and grow your presence in Asia and other global markets.

Eligible Canadian companies may apply for the federal **CanExport Grant**, which provides funding of **\$10,000–\$50,000** for expansion into non-U.S. markets. F.A.C.T. can assist your business with the application process.

The delegation will consist of Canadian entrepreneurs seeking to establish long-term, reliable international partnerships across Asia.
